**Title:** Recommendation Letter for Yeskendir Burabayev

Date: 30/10/2025

It is hereby certified that Yeskendir Burabayev completed his internship at our company during the period March – November 2025, in the Business Intelligence Department.

During his internship, he was involved in the creation of reports in Microsoft Power BI, covering the entire workflow: data loading, transformation, modeling, and presentation.

He managed data from various sources (Web, SharePoint, local files), performed data transformations, created relationships between tables, and developed complex calculations in DAX.

He demonstrated a good understanding of data modeling and report design principles, as well as a creative approach to using bookmarks, tooltips, and conditional formatting. He also became familiar with Power BI Online, where he worked on publishing reports, managing workspaces, and dashboards.

He is a curious, methodical, and eager-to-learn individual, who showed strong adaptability and a solid understanding of analytical tools. Although he initially faced some challenges in understanding the Greek language, he managed to adapt and perform effectively.

We recommend him without reservation for positions related to Business Intelligence or Data Analysis.

Sincerely,  
Stylianos Stiakakis

Chief Executive Officer
